

A personalized and comprehensive patient services program for acromegaly patients.

TAKING PATIENT SUPPORT PERSONALLY

As part of the Chiasma Access & Patient Support Program, also known as “CAPS”, you are our first priority. The comprehensive program, personal support and communication are individually tailored to your needs, your schedule and your communication preferences.

We’re looking forward to being a partner in your treatment journey and to your success with MYCAPSSA[®] (octreotide) delayed-release oral capsules.

OUR TEAM OF PATIENT CARE SPECIALISTS

Everything is personal. Which is why your dedicated Patient Care Specialist will be there every step of the way to help make accessing, starting, and staying on MYCAPSSA treatment as easy as possible.

Your personal Patient Care Specialist will help facilitate communication between you, your doctor, your specialty pharmacy, and your insurance company to make the transition to MYCAPSSA painless.

Over time, I’ve learned that I’m not alone in my journey with acromegaly. Allowing myself to lean on the support and expertise of others is part of my treatment success.

-Traci, living with acromegaly

INDICATION AND IMPORTANT SAFETY INFORMATION

What is MYCAPSSA (octreotide) for?

MYCAPSSA is an oral prescription medicine used in the long-term maintenance treatment of acromegaly in people for whom initial treatment with octreotide or lanreotide has been effective and tolerated.

If these treatments are effective and your body is tolerating it, you may be eligible to take MYCAPSSA instead of the injections. Ask your doctor if this oral treatment is appropriate for you.

What is the most important safety information I should know?

MYCAPSSA can cause problems with the gallbladder. Tell your healthcare provider if you have any of these symptoms: sudden pain in your upper right stomach (abdomen) or right shoulder or between your shoulder blades; yellowing of

your skin or the whites of your eyes; fever with chills; or nausea.

MYCAPSSA may affect your blood sugar, thyroid hormone, or vitamin B12 levels. Tell your healthcare provider if you have any problems or conditions related to these. Your healthcare provider may monitor these levels during your treatment with MYCAPSSA.

Tell your healthcare provider if you have an irregular heartbeat.

Who should not use MYCAPSSA?

MYCAPSSA can cause a serious allergic reaction including anaphylactic shock. Stop taking MYCAPSSA right away and get emergency help if you have any of these symptoms: swelling of your tongue, throat, lips, eyes or face; trouble swallowing or breathing; severe itching of the skin with rash or raised bumps; feeling faint; chest pain; or rapid heartbeat.

OUR SUPPORT

ACCESS MADE EASY

- **Financial assistance** for out-of-pocket expenses including copay assistance and referrals to other sources of support.
- **Benefits investigation** to better understand your insurance coverage for MYCAPSSA and how we can help.
- **Specialty pharmacy interaction** to ensure set-up and delivery at the right place and the right time.
- **Patient Assistance program** for individuals without insurance or who meet other eligibility requirements.

STARTING MYCAPSSA

- **Tips for success** from your Patient Care Specialist throughout the transition process that make MYCAPSSA a part of your daily routine and living with acromegaly easier.

CONTINUED PARTNERSHIP

- **Our job isn't over once you've started** on MYCAPSSA. We'll continue to check in—on your terms and your schedule. We're here to guide you through your new treatment routine and will ensure your questions are answered. We'll reach out to say hello, see how you're doing and **offer our support wherever we can be of assistance.**

\$0 OUT OF POCKET*

All eligible commercially insured patients can get MYCAPSSA for \$0 out of pocket.

For more information on joining the CAPS program and getting started on MYCAPSSA, call our Patient Care Specialists at 1-833-3GO-CAPS (1-833-346-2277), Monday-Friday, 8:30am-7pm EST.

INDICATION AND IMPORTANT SAFETY INFORMATION (Continued)

Do not use MYCAPSSA if you are allergic to octreotide or any other ingredients in MYCAPSSA. If you need to know the ingredients, ask your healthcare provider or pharmacist.

If you have certain other medical conditions, you should use MYCAPSSA with caution. Tell your healthcare provider about all your medical conditions, especially the following: pregnancy or breastfeeding; liver disease; kidney disease; or difficulty in emptying bladder completely.

Tell your healthcare provider about all the medicines you take. MYCAPSSA may affect the way other medicines work, and other medicines may affect how MYCAPSSA works.

What are the possible side effects of MYCAPSSA?

The most common side effects are headache, joint pain, nausea, weakness, diarrhea, and sweating a lot.

Talk to your healthcare provider if you have any side effect that bothers you or that does not go away. You may report side effects to the FDA at 1-800-FDA-1088.

Keep MYCAPSSA and all medicines out of the reach of children.

How should I take MYCAPSSA?

Do not take MYCAPSSA with food. MYCAPSSA should be taken with a glass of water on an empty stomach. Take MYCAPSSA at least 1 hour before a meal or at least 2 hours after a meal (for example, you could take your morning dose 1 hour before breakfast and your evening dose at bedtime).

For more information, please see the full [Patient Information](#).

***Terms and conditions** Only valid for commercially insured patients in the 50 United States, DC and Puerto Rico through the direct delivery service and/or designated retail pharmacies. Not eligible if prescriptions are paid for in part/full by state or federally funded program(s), like Medicare Part D, Medicaid, Vet. Aff., Dept. of Def., or Tricare, and where prohibited by law. OFFER IS NOT INSURANCE. Offer cannot be sold, purchased, traded, transferred, and cannot be combined with any other offer. Cash discount cards are not eligible to be used for this program.
